

FMI Incorporated
Ultra-Clean Silicone Molding

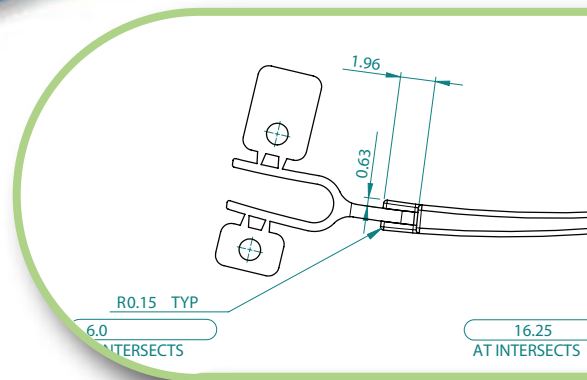

Rapid Development Program

FMI's Rapid Development Program (RDP) is designed to shorten the time between prototype and production. The RDP program includes:

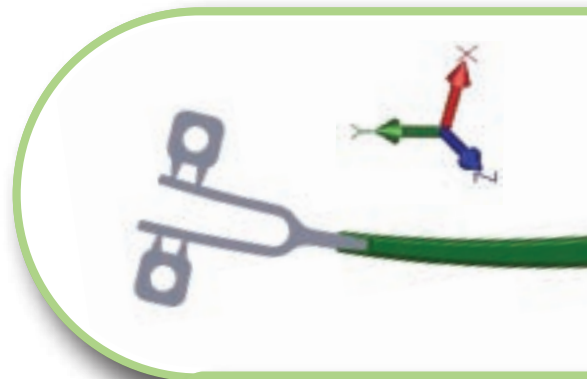

- ▶ 50 prototype parts
- ▶ Parts delivered within 2-4 weeks depending on part complexity
- ▶ Single cavity stainless steel insert
- ▶ Design for manufacturability (DFM) and engineering support
- ▶ Full dimensional first article report
- ▶ Excellent for concept verification
- ▶ Improve speed to market
