## Ultra-Clean Silicone Molding

Inspection

R&D

Cardiac rhythm management

- ④ FMI manufactures critical silicone rubber components that go into lifesaving medical devices and state of the art laboratory equipment
- ④ Insert molding, bonding of silicone to various substrates
- ④ Micro-precision parts manufactured to the tightest tolerances
- ④ Clean room molding ISO class 5, 6, and 7
- ④ FDA approved materials
- ④ Implantable and disposable applications
- ④ Advanced process engineering and manufacturing methods
- ④ IQ/OQ/PQ qualification process
